***Election/Restrictions***

1. Claims 1-43 are presented for examination.
2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-25 and 32-43, drawn to attaching electronic sticky note to data items, classified in class 715, subclass 512.
  - II. Claims 26-31, drawn to moving data object from one location to another by drag-drop component, classified in class 715, subclass 769.
3. The inventions are distinct, each from the other because of the following reasons:

The inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as attaching electronic sticky note to data items. Invention II has separate utility such as moving data object from one location to another by drag-drop component. See MPEP § 806.05(d).

4. The inventions are distinct, each from the other because of the following reasons:

a. These inventions have acquired a separate status in the art as shown by their different classifications.

b. The search required for one Group is not required for the other Groups

For the reasons above restriction for examination purposes as indicated is proper.

5. Applicant is requested to formally cancel the non-elected claims.

6. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

7. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
